#### *Introductions*

Group was welcomed and agenda was reviewed. Introductions were made.

#### *ASH Redesign Background and Logistics*

ASH Redesign planning principles reviewed along with history of the project and current status of project. Reviewed expected timeline for the work group. Provided clarity on the future use space on the ASH campus. Additional details on the ASH Redesign Project can be found at [ashredesign.org](http://ashredesign.org).

#### *Phase III History of ASH Work Group Goals and Next Steps*

Shared primary three goals of the group. Discussed whether space would be combining resource and cultural center or if they would be two separate areas. Suggested recommending scalable options for HHSC to choose from. Reviewed previous work done for both the preservation on history of ASH and cultural resource center. Group agreed that more discussion is needed on the resource and cultural centers. Reviewed next steps and questions to consider when trying to reach the goals set forth. Plan is to have the entire group focus on goal one through the end of 2021, then splitting into two subgroups to tackle goals two and three.

#### *Close*

Provided expectations for next meeting.
